

DESPERATE STAND AT KROONSTADT

Krueger Personally Superintending the Intrenchments.

ROBERTS IS WAITING

Fears that the Free Staters Are Playing Possum With Engiand.

News of Attacks On Col. Plumer Was a Shock to British Complacency—Public Awakes to the Fact that Spirit of Boers Is By No Means Broken—More Rumors That Making Has Been Relieved Are Not Confirmed.

London, March 23.—[Special Cablegram]—Conflicting rumors are current concerning Mafeking. The report that the town had been relieved is doubted by military experts and the war office this morning fails to offer anything in confirmation.

News of the attacks on Col. Plumer was a shock to British complacency and awakes the public mind to the fact that the spirit of the Boers outside of the Free State is by no means broken.

A correspondent for the Times at Springfontein expresses fears that the attitude of the Free Staters is fictitious. He says those who have surrendered have given up only inferior weapons.

Krueger at Kroonstadt
London, March 23.—[Special Cablegram]—A Bloemfontein dispatch says: "Krueger is personally superintending the extensive entrenchments at Kroonstadt where the Boers will make a desperate stand."

Report from British Sources
Bloemfontein, March 23.—[Special Cablegram]—A deserter from the Boer lines says Krueger has proclaimed England in dire straits at home, the Russians having occupied London, which they had proclaimed Russian territory.

Ruinous Looting Continues.
Barkley West, March 23.—[Special Cablegram]—The colonial rebels are looting in large numbers. Ruinous looting continues in this district. The local mayor and staff are imprisoned.

Small Boer Bodies Active
Ladysmith, March 23.—[Special Cablegram]—The British patrols are constantly in touch with small bodies of the enemy near Biggarsburg. The Boers appear to have guns, though there are no signs of extensive entrenchments. There was a skirmish Wednesday fifteen miles north of here. No casualties on the British side.

Boer Advance Northward
Bulawayo, March 23.—[Special Cablegram]—It is believed that the object of the Boer advance northward to Lobatse is to cover the removal of the siege guns around Mafeking.

WAR RUMORS ARE CONFLICTING

Has Mafeking Been Relieved? Has Capture Been Defeated?

London, March 23.—Again there is a persistent rumor that Mafeking has been relieved. It is even asserted that the war office has received a dispatch positively announcing the relief, but that publication of it is withheld because the form of the message admits the possibility of mistake. It seems certain that Mafeking's only chance lies in relief by the column supposed to be advancing from the south or in the possibility that Col. Baden-Powell is still strong enough to attempt a sortie with a view of capturing the Boer guns at a time when Commandant Snyman has withdrawn his men to oppose Col. Plumer's advance.

The work of pacification in the Free State goes on without interruption. Gen. Roberts reports that small columns are going out in various directions to receive arms and register names. One town after another has been occupied on the line of railway south of Bloemfontein, and there have been cavalry circuits and infantry marches eastward of Thaba Nchu and Smithfield and westward to Philippolis and Fauresmith.

The southern section of the Free State has ceased to be in a state of war. When the rifles and the ammunition have been collected the march northward will be taken in easy stages, and the same process of pacification will be continued.

Gatacre and Clements are carrying their columns northward to the capital, east and west of the railway lines, and Gen. Roberts' army will have, with these reinforcements, 63,000 men for the purpose of forcing the Vaal river.

No attention is paid in any quarter to the wild Boer rumors of Commandant Olivier's victory over Gen. Gatacre, which are believed designed to revive the drooping spirits of the burghers.

As a matter of fact, a News telegram from Springfontein shows the British general to have been there at a date later than that of his alleged capture.

Boers Dare Not Destroy Mines.

Pretoria, March 23.—The Rand Post says it has been advised that there will be a general destruction of the mines before the British are allowed to occupy the gold fields, while the Standard and Diggers' News strongly opposes such a measure. It declares that the destruction of the mines would be an act of vandalism which would alienate the sympathy of friendly powers. This latter view is strongly intorsed.

Netherlands Decline to Intervene.

The Hague, March 23.—The Netherlands government has replied to the appeal of the presidents of the South African republics asking for intervention, regretting that it is unable to comply with the request on account of the formal declaration of Great Britain that intervention by any power would not be accepted.

MILWAUKEE MUST COME TO THE FRONT

State Fair Will Go to Oshkosh or Wausau Unless Promises Made Are Kept.

Madison, Wis., March 23.—George McKerrow, president of the state board of agriculture, said today that the board had given the special committee of the merchants and manufacturers' association of Milwaukee until April 10, to raise the remainder of the promised \$15,000 bonus to insure the holding of the fair in the Cream city next fall. If the entire amount is not ready by that time, he believed the board would consider the proposition made by Oshkosh and Wausau.

Arthur Daubner Is Dead.

Brookfield, Wis., March 23.—Arthur Daubner of Brookfield, Wis., who was known all over Minnesota and Wisconsin as the "big restaurant man," died yesterday at the Leland Hotel, Chicago. He was 40 years old. Mr. Daubner was given the name of the "big restaurant man" on account of his weight. He was 6 feet 4 inches tall and weighed 450 pounds. He had been in the restaurant business in Minnesota before going to Brookfield, Wis., and was a familiar figure to the traveling public.

INDICTMENT MADE NETHERSOLE SICK

Grand Jury Finds That "Sapho" is Unfit to Be Seen By the Public.

New York, March 23.—Oiga Nethersole, the actress, was arraigned today in the court of general sessions to plead to the charge of offending public decency by producing Clyde Fitch's play, "Sapho."

When she heard that the indictment had been returned she collapsed and was unable to appear at Wallack's theater last night. Since the police stopped "Sapho" Miss Nethersole has produced "The Second Mrs. Tanqueray" and "The Profligate." She swooned when the news of the jury's verdict was told her at the Hoffman house, where she has apartments. Dr. Charles Phelps and Dr. Halbrook Curtis were called in to attend Miss Nethersole. They found her suffering from a threatened attack of nervous prostration and immediately put their patient in the care of a trained nurse.

Dr. Curtis said today that Miss Nethersole would not be able to leave her room for ten days at least. At Wallack's theatre it was said that the actress would not appear again for two weeks. No notice of her illness was posted on the doors of the theater and no explanations were made to the wondering crowds.

Indicted with the actress on the same charge were Hamilton Revelle, her principal actor; Marcus Mayer, Miss Nethersole's manager, and Theodore Moss, the veteran proprietor of Wallack's theater, where "Sapho" was presented until stopped by the police.

A CIVIL WAR IN ABYSSINIA

Chief Ras Mangascia Again in Revolt But Is Defeated.

Rome, March 23.—News has just been received in Rome that civil war has again broken out in the northern part of Abyssinia, adjoining the Italian colony of Erythraea, and that Ras Mangascia is once more leading the rebels in an attempt to overthrow Emperor Menelik's authority in Tigre.

Ras Mangascia has been quiet since his defeat and submission something for a year ago, but he has succeeded in collecting another following and recently took the field. Menelik sent Ras Abbugubben with a strong force against the rebels, and a battle ensued near Haik meskal, in which Mangascia was completely routed.

BECKHAM'S TROOPS PLACED ON GUARD

STEPS TAKEN TO BACK CIVIL LAW IN KENTUCKY.

Strong Force of Special Deputies Sworn By Sheriff—Will Protect Court at Today's Trial of Alleged Goebel Conspirators—Prepared For Rumored Invasion of Mountaineers.

Frankfort, Ky., March 23.—[Special Telegram]—Every building surrounding the jail is occupied by armed deputies ready to fire from the windows in case of an attack.

The Powers case was called first when the court opened this morning. It is not believed that Taylor intends to interfere with the court proceedings at present.

Frankfort, Ky., March 23.—Political excitement is again running high in Frankfort and threatens to burst into fury today in case of an attempt to release either of the prisoners to be arraigned on the charge of accessory before the fact to the murder of William Goebel.

The possible return of a large force of mountain men, supposed friends of Caleb Powers, from Knox and surrounding counties, alarmed the Beckham government and local county and city authorities. Information that the mountain men had left Barboursville on a special train for Frankfort to be present at the examining trial of Secretary of State Powers, Capt. John Davis and W. H. Culton before County Judge Moore caused Sheriff Suter to summon a force to enable him to prevent any attempt to take the prisoners from his custody and to preserve order.

Collier's Promise For Peace

Gen. Castleman and others were in conference with Mr. Beckham all last night, and as a result in addition to the posse summoned by Sheriff Suter about 200 soldiers under Castleman will be in service at the jail and court house. Guns and ammunition were today stored in the court house and everything was made ready to repulse an attack. Every man who goes into the court house pending the examining trial will be searched and relieved of his firearms. Gen. Castleman says he has an understanding with Gen. Collier for his cooperation and assistance in preserving the peace.

The soldiers in the state house square under Taylor and Collier have exhibited no concern over the excitement. The Gatling gun was reloaded this morning, however, and made ready for action.

Beckham Troops Arrive

The first detachment of soldiers to arrive here was the Lexington company under Captain Langmore. The men marched to the courthouse and were viewed by the Taylor soldiers, who stood in the statehouse yard a square away. The Taylor soldiers sent up a loud cheer. The Winchester company joined the Lexington company later. The Beckham troops have two Gatling guns. A small contingent of mountain men has arrived. Mr. Beckham last night issued an address to the people, in which he said it was his desire to conduct affairs in a way to command respect; he also desired to restore order in the state.

ENGLAND WANTS A STRIP OF ALASKA

Will Allow Uncle Sam to Fortify Nicaragua Canal As a Return Concession.

Washington, D. C., March 23.—Notwithstanding denials of the State department, the Joint High commission will assemble in the near future, it was learned today from sources which have hitherto proved reliable, that this body will meet in the immediate future to consider questions of great importance, including the fortification of the Nicaraguan Canal, and the possible relinquishment of a small strip of Alaskan territory to the British government. It has not been determined whether the meeting will be in Washington or Ottawa, nor just when the commission will be convened.

The proposal for reconvening the commission comes from Great Britain. As it is well known, there is much opposition to the Hay-Pauncefote treaty, which provides in its original shape for a neutral canal, and one which would not be fortified by this country even in time of war.

Senator Davis has proposed an amendment to the treaty which gives this government the right to control the canal absolutely whenever the United States becomes involved in a war with a foreign nation. Great Britain naturally opposes this amendment, but it is said that government has proposed to reconvene the Joint High commission with the intention of affecting negotiations which will permit the United States to fortify the Nicaraguan Canal, and in exchange for this Great Britain will ask for an outlet through Alaska to the sea, which means the cession of Pyramid Harbor to the British government.

Woman Burned to Death

Milwaukee, Wis., March 23.—[Special Telegram]—Mrs. Christina Nagel was burned to death in the one room which she called her home, in the rear of 1204 Ninth street this morning. The upsetting of a lamp is supposed to have been the cause of the fire.

GOOD REASONS WHY HARRISON WON'T GO

MAYOR OF CHICAGO TURNS DOWN MAYOR OF MILWAUKEE

Refuses to Attend Big Demonstration Scheduled For Tomorrow Night—Rose's Street Railway Record Is Bad—Gloom Cast Over the Faithful In Cream City.

Milwaukee, March 23.—Mayor Rose has asked the Cook County Democracy Marching Club of Chicago to keep away from here until after election. The mayor's campaign managers intimated last night, when announcing the abandonment of the club's appearance here Saturday, that the arrangements had been declared off in Chicago, but the truth is as stated. Confirmatory details have leaked out.

One of Mayor Rose's lieutenants called up Robert E. Burke on the long-distance telephone yesterday afternoon and forgot to shut the door of the telephone booth. What Mr. Burke, at the other end of the wire, had to say can only be conjectured. The substance of what was heard at this end ran:

"Hello! Is that Mr. Burke?"

"Have you made all arrangements for coming here Saturday?"

"Say, that's too bad. Dave says he guesses we'll have to cut that off. Can't you find a good excuse for not coming?"

Afraid They Would Not Mix

"Well, to tell you the plain, honest truth, we're afraid your people and our people won't mix."

At that the telephone commenced to buzz and hum as it does when the telephone girl turns on the "busy" signal—only more so. Its commotion could be heard 100 feet. The man at the phone looked startled and then dazed.

"Hello! Hello!" he shouted and frantically pounded the transmitter. "Wait a minute! Let me explain!"

"I didn't call you 'micks.' You misunderstood. Hang a telephone anyhow. I said 'your people and our people won't mix'—won't mingle, you know."

"That's it. Won't get along together."

"Well, I'll tell you just how it is. This fellow running against Dave is Baumgartner—Baumgartner, you know. They're trying to make his name an issue. You know how Milwaukee is. Dave can't win unless he gets help from Dinkelspiel and Hofbrau and Culmbacher and Blutwurst and some more of them boys. Baumgartner's fellows have dug up a roster of your club, and to tell you the truth, old man, Farrell and Powers and Kelly and Houlihan and Dooley are there rather strong. You see they are spreading the cry that a lot of Chicago 'Turks' are coming up here to run Milwaukee politics."

Don't Like Pretzels

"Yes, Mr. Burke, I understand all your fellows are with the Boers, and so are we, but there's other things."

"But your fellows don't like pretzels, do they?"

"Well, that's bad. You see, Dave thinks they might not get the right accent on 'zwei bier' and 'gesundheit.' But here's Dave now. I'll let him talk."

The mayor of Milwaukee thoughtfully closed the door of the telephone booth before he commenced to talk.

But the County Democracy club will not be here, anyhow, and an announcement of that fact has caused much surprise. Its coming had been widely advertised.

The story was told here today that Mayor Harrison has informed himself regarding Mayor Rose's record on the street railway franchise question. This record is diametrically opposed to the record and attitude of Mayor Harrison on the same question.

DRUG STORE MEN WILL BE HEARD

They are Anxious for Repeal of War Tax on Proprietary Medicines.

Washington, March 23.—Within the next few days the drug interests of the country will be given a hearing by the ways and means committee on a bill introduced by representative Boutell providing for the repeal of the war tax on proprietary medicines.

Representatives of the drug concerns have been notified to appear before the committee and give their reasons for asking the repeal of these taxes. When the hearing is concluded Mr. Boutell will make an effort to have the bill adopted, although the ways and means committee has already decided that nothing in this direction will be done this session.

In discussing this question today Mr. Boutell said:

"These taxes were imposed under the stress of war, and as expenses for maintaining the army and navy are already greatly reduced it is time to begin to relieve the people of the trouble of affixing stamps which are required by the war revenue act. This is particularly true of the proprietary medicines."

Federal Troops in Idaho

Washington, March 23.—[Special Telegram]—A resolution calling upon the president to withdraw the troops from Idaho was introduced in the house and senate this afternoon. The resolution states that there is no good reason for keeping the soldiers there.

SCHOOL TO SHUT OUT WOMEN

Adverse Report on Further Coeducation at Wesleyan College

Middletown, Conn., March 23.—Wesleyan university has decided that coeducation must go for the reason that there are getting to be too many women students. The protest against the system came from the most recent graduates.

The remedy will be applied by the establishment in the fall of 1901 of a separate college for women, affiliated with the Wesleyan, and giving the women students the same advantages as the men but conferring degrees of its own.

Try to Rob an American Girl

STEPHENSON MAKES BIG LUMBER DEAL

The Product of Two Mills Was Today Sold to a Chicago Firm for \$1,000,000.

Marionette, March 23.—[Special Telegram]—Isaac Stephenson today completed the largest lumber deal of the year at Menominee, and one of the largest that will be made in the United States this year. He sold to the Edward Hires Lumber company the coming season's product of two mills, those of the N. Ludington company and the Stephenson Mfg company. The sale will aggregate 45,000,000 feet or more. The consideration is \$1,000,000.

HOUSE ENDS HOPE FOR THE LOUD BILL

No Correction in Abuse of Second Class Mails During this Session.

Washington, March 23.—By a vote of 148 to 96 the house yesterday decided to recommit to the committee which framed it the measure proposed to correct abuses of the second class postal rate. There was a majority of 52 in favor of sending it back to the committee, thirty-four republicans voting for this motion.

As the sentiment is so strong against the bill, it is not likely Chairman Loud will attempt to get it up again this session and it is believed the bill is dead. This bill has been before congress session after session.

This means that cheap books can be sent through the mails at the pound rates, and the deficit will doubtless continue until congress summons up courage enough to cut down the allowance for railroad transportation about 25 per cent.

LABOR WILL APPEAL TO CONGRESS SOON

Union Men Want Charges Against Federal Employees Thoroughly Investigated.

Washington, D. C., March 23.—President Gompers today was directed by the executive council of the Federation of Labor, in the event of inability to secure every facility for the investigation of the charges preferred against Claude M. Johnson, director of the bureau of engraving and printing, to endeavor to bring about a congressional investigation. The resident members of the council at Washington were instructed to aid in securing the passage of the bill directing the public printer to use the Allied Printing Trades label on all government printing.

Resolutions were adopted instructing the legislative committee to propose legislation regarding the imperialistic policy or the increase of the standing army.

To aid in propagating unionism the council recommended that May day (wherever observed), Independence day and Labor day be set apart as special dates for public meetings in every city and town in the country.

CRIME OF A NEGRO PREACHER.

Murders a Woman and Daughter and Turns Four Others to Death.

Raleigh, N. C., March 23.—Thomas Jones, a negro preacher, Thursday morning murdered Ella Jones and her 4-year-old daughter Ida, and burned alive four smaller children by firing the house in which the family lived. Laura Jones, aged 7, and Sid Jones, aged 4 years, escaped from the burning building. Laura Jones told of the visit to her home by Preacher Jones after 1 o'clock Thursday morning. With an ax he crushed the faces of the mother and daughter and then fired the house. The six smaller children were left in the house to perish in the flames, but two managed to escape, their faces smeared with blood. The Jones woman was the mother of an infant three weeks old, and she had charged the preacher with being its father. Blood was found on a pair of trousers at his house. He was promptly arrested and jailed.

STAND BY HOUSE PORTO RICAN BILL

Administration Leaders and Harmony Committee Agree.

PROGRAM IS SETTLED

Party Whip Will Be Used to Bring In the Bolting Senators.

Then the Senate Will take Up the Foraker Measure—Ohio Senators Scheme For a Civil Government For the Island Will Be Pressed to Passage After a Solution of the Main Problem Has Been Reached.

Washington, March 23.—At last the republican party at this capital has moved itself to an effort to force the 15 per cent. tariff bill upon unwilling Porto Rico. By the republican party is meant President McKinley, his cabinet and the leaders in the two houses of congress. The republican committee of harmony held a meeting late yesterday afternoon and practically agreed upon the following program, which will probably be reported to a republican caucus to be called next week:

1. Passage by the senate of the house 15 per cent. bill without any amendments whatever.

2. Passage through both houses of the Foraker bill providing a civil government for Porto Rico.

This program, be it understood, is not finally decided upon, but members of the committee say it is virtually agreed to, and unless some change comes in the situation it will be their recommendation to the caucus.

Compromise May Be Necessary.

Although the senate leaders claim they have enough votes to put this program through, it is known they are not as confident as they pretend to be, and that secretly they admit that it may be necessary to offer some compromise in order to secure the requisite number of votes in the senate.

Thirteen republicans stand out against the house bill, and are waiting to see if the majority will not offer them some compromise upon which most of them can stand and thus preserve a semblance of party harmony. Some compromise the leaders would be glad to offer were it not for the danger that the smallest amendment of the house bill will endanger the occurrence of the lower body.

Inasmuch as a compromise upon free trade is now regarded as impossible, and as nothing less than that will satisfy public opinion, the managers say they have nothing to gain but everything to lose by offering concessions. Therefore they have decided to go ahead with the naked house proposition, provided they can make sure of enough votes to carry it through.

An Alternative Plan

If they cannot win in the senate with the naked house bill and thus avoid the hazard of a second battle in the lower branch they have an alternative plan, which will be brought forward as soon as it is perceived the first cannot carry. This alternative is now known as the President's plan—15 per cent on goods coming into the United States, the present free list and duties established by executive order upon goods going into Porto Rico, and the whole tariff limited to such time as the civil government of Porto Rico may provide its own revenues.

Iowa Against the Bill.

Des Moines, March 23.—The Iowa house of representatives has unanimously declared by resolution against the Porto Rican tariff bill now before the United States senate. This resolution was introduced in the house at noon yesterday by Representative Nathan E. Kendall, of Albia, and there was not a speech made in opposition to it.

The language of the resolution is unmistakable as registering the sentiments of Iowa Republicans, who hold the house by a heavy majority.

GOV. TANNER WANTS CULLUM'S POSITION

Governor of Illinois Announces That He is an Active Candidate for United States Senator.

Springfield, Ill., March 23.—Governor Tanner is a candidate for United States senator to succeed Shelby M. Cullum, despite his declarations to the contrary. Mack Tanner, the governor's son and private secretary, is authority for this statement. R. D. Lawrence of Springfield, president of the state board of charities, brought this information to Cullum headquarters yesterday, and it became the all absorbing topic of political gossip there. Charles E. Selby, who is in charge of the Cullum camp, vouches for the truth of the story.

Don't let your house stand idle a minute when 25 cents for a want ad will rent it.

NEW CREAMERY AT HOAG'S CORNERS

Town of Harmony Farmers Agitating the Question—News from Six Corners.

Six Corners, March 23—Geo. Mansfield of the George C. Mansfield Creamery Co. met a large assemblage of Harmony farmers at the town hall on Wednesday afternoon. Mr. Mansfield came by the invitation of a number of our prominent farmers and dairymen who are trying to get a creamery located at Hoag's corners. This location would place a factory midway between Mr. Godfrey's factories at Spaulding and this place. Although a large proportion of those present would be in favor of having the creamery located some two miles farther south on the Milwaukee road yet it is believed that Mr. Mansfield favors the former mentioned location. The committee having charge of the work have already secured the names of a sufficient number of farmers that will furnish one-half the quota of cows required.

JEFFRIES-SHARKEY AT GRAND TONIGHT

Biograph Pictures of the Great Frize Fight—Said to be a Good Show.

The Jeffries-Sharkey biograph pictures will be shown at the Myers Grand tonight and there is promise of a full house.

These pictures vividly present every move made in the 25-round contest, rendering recognizable the faces of many national celebrities, both in sporting, financial and political circles, and require two and a half hours for their display.

The pictures were taken under the direction of Manager Martin Julian who has charge of the club, and who is also directing the tour of the pictures. The mere illumination for securing proper negatives required an outlay of \$5,200. The total outlay was over fifty thousands of dollars, but for the risk taken the owners of the pictures have been repaid in several fortunes, each of them larger than the one expended in the enterprise.

Taken this month keeps you well all the year. Greatest tonic known. Rocky Mountain tea, made by Madison Medicine Co. 35c. Smith's pharmacy kiosk agents.

DO YOU KNOW THAT
POOR PRINTING WILL
do much toward injuring a man's
business. A poorly displayed
piece of dirty ink splattered onto a

can only call forth ridicule and
destroy the value of the circular,

GOOD PRINTING costs but little
more than poor printing. The

FIGGS GIVEN COATS OF TAR.

Man and Wife Offend the Moral Residents of Gretna, Neb.

THEY TAUGHT FREE LOVE.

Regulators Warn Advocates of Peculiar Religious Belief to Leave Community Under Penalty of More Punishment.

Gretna, Neb., March 23.—The wrath of a committee of infuriated citizens of this village has descended on the heads of Louis Figg and wife, the founders of a new religious sect. Late Tuesday night fourteen of the best citizens in the community called on the objectionable couple. Two sons of the Figgs, who barred the way with drawn revolvers, were seized, disarmed and bound. Figg and his wife were in hiding in an upstairs room. They were speedily stripped of their clothing and then treated to a thick coating of tar and feathers.

Figg was the original owner of the town site of Gretna, and one of the wealthy men of the community. Some years ago he and his wife espoused a peculiar religious faith. Their belief is that Mrs. Figg is the true Christ, and her husband is St. John, the favorite disciple. They have contended that when they acted together they had the power of cleansing from all sin. The belief has gathered in many converts in the neighborhood, most of whom were women.

With relation to marriage the Figgs are known as "free lovers," and hold that the legal requirement as to marriage is an unnecessary institution. As a result of their teaching, Figg and his wife have induced several women to leave their husbands and children, to take up their home with the Figgs. The women have refused all importunities to return to their homes, saying that Figg was their god, and their husbands were devils. The charge has been openly made that Figg's religion was only a cloak to his maintaining a harem.

HOW TO LIVE LONG

Is the subject of a poem written by the philosophical Pope Leo XIII, who has attained more years than his allotted three score and ten, in which he advises

MURDERER SURRENDERS.

"I'm the Man Wanted for the Murder of Bob the Barber."

Chicago, March 23.—"I'm the man who's wanted for the murder of Bob the barber," announced a slender man to Capt. Wheeler and Lieut. Wheeler at the Maxwell street police station Thursday night. Just twenty-four hours after Robert W. Gilchrist was shot down in his shop at 1764 Twenty-second street by a stranger. It was Lawrence E. Walsh of 1046 Trumbull avenue, and he said he killed the barber deliberately because of a wrong he believed he had suffered at Gilchrist's hands. Walsh told the officers of the method he employed in killing Gilchrist with apparent calmness. He seemed to consider the motive of his crime as something too personal and sacred to be lightly discussed, and referred to it with a studied mysteriousness, but claimed that four other men were implicated in the wrong done him by Gilchrist.

BURNED TO DEATH BY FIENDS.

Details Received of the Horrible Death of a South Carolina Girl.

Columbia, S. C., March 23.—Cassie Boan, aged 19, Sunday evening went driving with Sam Woodard. They stopped at a house on the road at which several young men were visiting, and later in the evening left there for home with Tom Steen and James Jackson. The girl never reached home. There is evidence of her having been tortured and burned to death. The three Jackson brothers and Tom Steen are in jail, and it is reported Steen has confessed to the sheriff.

Soleils of Homeless Girl.

Chicago, March 23.—A longing to be with her parents, and the alleged refusal of her guardian to allow her that privilege, caused Mary Maston, 15 years old, to end her life Thursday. She swallowed carbolic acid, and died soon after at the county hospital, after making the brief statement that she wanted to die because she could not see her parents. The girl made her home with her aunt, who denies that she refused the girl the privilege of seeing her parents, from whom she had been separated for some time, but she says that Mary thought a great deal of her mother, and frequently expressed a desire to see her often, which she was allowed to do.

Deputy Sheriff Killed by Robbers.

Suffolk, Va., March 23.—John Saunders and B. W. Walton, members of a sheriff's posse who had volunteered to run down a gang of robbers at Emporia, Va., were Thursday shot dead while attacking the band at their lair, an old house in a lonely wood a few miles out of town. The posse was repulsed without any damage to the highwaymen, most of whom are negroes. Later citizens' forces were centralized, and a white man, supposed to be the leader, was captured. The avenues of escape are cut off and further arrests will likely follow.

Fight in Runaway Elevator.

St. Louis, Mo., March 23.—Clifford Jones, elevator man, and Harry Schoen, doorman, fought in a runaway elevator at noon Thursday in the Olive Studio building, where both were employed. The elevator, free of control, shot up at dizzy speed, while the combatants struggled on the bottom of the car. Upon reaching the sixth floor the elevator was checked automatically, but the men continued to fight. Finally Jones caught up a monkey wrench and beat the doorman into insensibility.

Sexagenarian's Courtship Ended.

Akron, Ohio, March 23.—David Arnold, a wealthy gold-mine operator of Deadwood, 64 years old, was married in Springfield township Thursday night to Elizabeth England, aged 61. They were lovers long ago. She would not leave her parents to marry him, but through all the years each was true to the other. They kept up a regular correspondence, and several times Arnold came east to see her.

London's Ancient Records.

The county council of London, as the successor of the Metropolitan board of works, is custodian of a number of valuable documents bearing upon the local history of the metropolis. Included in the collection are many volumes of minutes of the commissioners of sewers dating back to the reign of Henry VIII, together with papers and deeds relating to important buildings such as Northumberland house, which formerly stood at Charing Cross. These interesting documents have hitherto been inaccessible to the public, but the council has now decided to publish a selection of them in volume.

"To-morrow, and to-morrow, and to-morrow, Creep on in petty space from day to day And all our yesterdays have lighted fools The way to dusty death."

Procrastination is the thief of health as well as the thief of time. There are few things in which procrastination is so much indulged as in letter writing. We mean to write, but "to-morrow and to-morrow creep on" and we neglect it. This is bad enough when the correspondence is social or business in its character, but when it concerns the vital issue of health it is infinitely worse.

This touches you, if you are one of the women who have felt inclined to take advantage of Dr. Pierce's offer of a consultation by letter, free. You have studied the evidence which shows how other women have been cured. You cannot doubt but that Dr. Pierce's Favorite Prescription does cure diseases peculiar to women; irregularity, ulcerations, inflammations, bearing-down pains. You cannot doubt it, because of the force of the testimony of hundreds of thousands of weak women made strong, and sick women made well, and you mean to write—to-morrow.

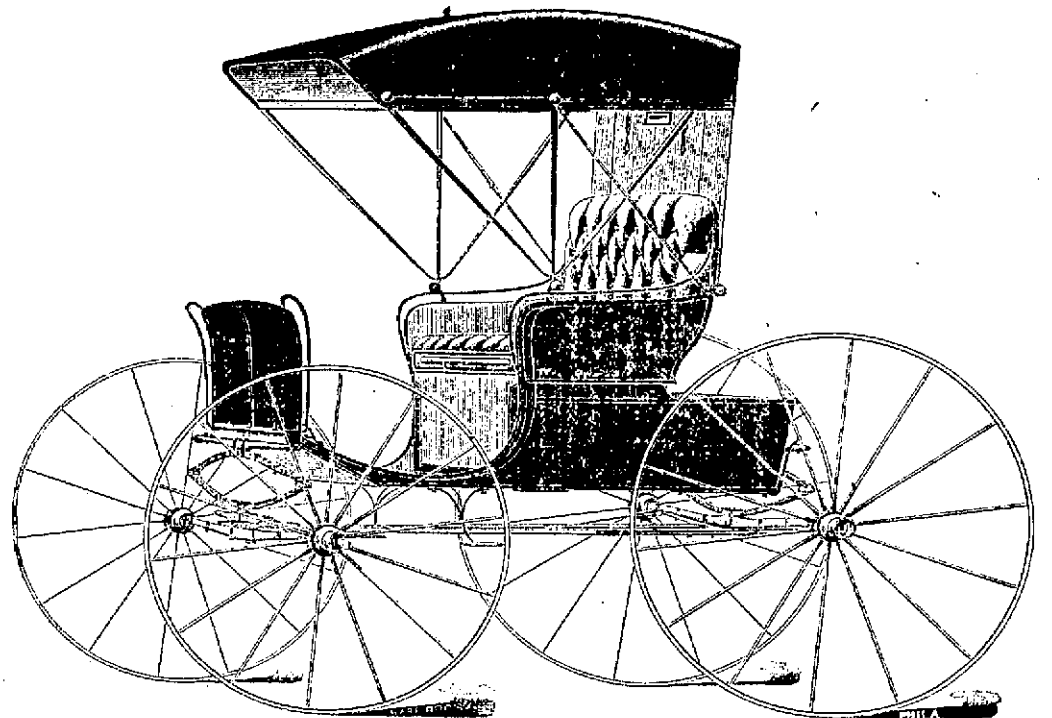

Write to-day. Your letter will be read in private, its contents guarded as a sacred confidence, and an answer promptly mailed you in a plain envelope without any printing upon it. Address Dr. R. V. Pierce, Buffalo, N. Y.

"When I wrote you about my ailments I was living in Richmond, Iowa," writes Mrs. M. V. Vane, of 647 South Liberty Street, Gatesburg, Ill. "I took six bottles of Dr. Pierce's Favorite Prescription, four of the 'Golden Medical Discovery' and four vials of Dr. Pierce's Pleasant Pellets. Before I had taken four bottles of the 'Favorite Prescription' I was a new woman. I cannot make pen describe my heartfelt gratitude, but will confirm the truth of all I say if those who write inclose stamped envelope for reply."

Dr. Pierce's Pellets are a natural aid to beauty. They clear the complexion.

Mrs. Lizzie Barker Shibley.

Mrs. Lizzie Barker Shibley was born in Windsor, Vt., Oct. 7, 1827 and died at the home of her daughter in Milton, March 13, 1900. She was the only daughter in a family of five children, her mother died when she was but four years of age and a few years later she went to live in the home of Mrs. Richardson, in Manchester, New Hampshire, where she attended school. She spent three years and a half with her brother Benjamin, in East Greenwich, N. Y., and in Aug. 1850 moved to Wisconsin with her youngest brother Phileas. They arrived in Janesville when but few buildings had been erected in this city. The following winter and summer she taught school on Morse's Prairie and boarded with her brother Calvin. Soon after this she was married to Nathaniel Harvey and settled on a farm six miles north of Janesville. Her husband died Sept. 19, 1855 and left her a widow with two children, Clara and Willie. In 1858 she was married to Mr. Chauncey Shibley and went to live on a farm in the town of Fulton, Rock county, where they have resided for 32 years. Two children were born to them, Addie and George.

Her husband died in this city about thirty-three years ago, and is buried in the cemetery near Barker's, in the town of Janesville. Mrs. Lord was the mother of fifteen children, but four of whom are living: Mrs. Betsey Maine and Mrs. Mary Hawley of this city; Mrs. Lucretia Boyd of Evansville; and Mrs. H. G. Hand of Riverdale, Illinois.

The funeral will take place from the residence of W. H. Grove on Sunday at 2 o'clock. The remains will arrive from Chicago at noon tomorrow.

Illiteracy in Russia.

The illiteracy of Russia exceeds that of any other country claiming to have a civilized government. The Humanitarian states that in 10,000 villages of the vast empire there is not a school and it is estimated that not twenty per cent of the population of the empire has acquired even the rudiments of a common school education. It has been figured out that if the czar would disband 100,000 men of the vast army he would thereby save money enough to provide a school for each of these villages. It is not surprising that the czar should desire to reach some arrangement with the other nations which would permit him to partially disarm.

BOLD BURGLAR ROBS FLETCHER BROS.

Entered Their East Milwaukee Street Grocery Store Before Darkness Set In Last Evening.

Between 6:30 and 7 o'clock last evening the grocery store of Fletcher Bros. on East Milwaukee street was entered and \$150 in cash was taken from the safe and cash register.

The thief or thieves gained entrance through the rear door by removing a pane of glass in the door and then up-lifting a bar of iron.

Today the police have been working hard on the case and arrests may soon follow, as certain home talent is suspected.

The police are of the opinion that some one who well knew the store and all the circumstances about the proper time to do such a job is most likely to be the guilty party. Chief Hogan and Sheriff Appleby now have the case in hand.

Fletcher Bros. close their store at 6:30 o'clock Thursday night. Robert Bear, the clerk, was the last one to leave the store last evening and on his departure he neglected to lock the safe thinking that it would be all right as he expected to return after supper. When Mr. Bear returned he found the gas over the safe turned off. On lighting it he made the discovery of the robbery.

PHILADELPHIA HOSPITAL FIRE.

Medical Students Save 150 Helpless Patients.

Philadelphia, Pa., March 23.—More than 150 men, women and children, all ill or hurt, all suffering, some dying, were carried from Jefferson hospital at Tenth and Sansom streets Thursday afternoon. Next door flames were raging, and the walls of the burning building were resting against the walls of the hospital. It looked for a time as if the whole hospital was going, and that the helpless inmates, the brave nurses, physicians and attendants would perish. A loud explosion shortly after 4 o'clock was followed by toppling walls, sheets of flame and volumes of smoke. The sound of the explosion was heard by the 200 medical students in the Jefferson Medical college, in Walnut street. With one impulse they dashed from the class and made for the hospital. Like a drilled fire department they made for every ward in the hospital, and long before the engines had arrived they were carrying the men and children from the wards in danger of instant burning to other wards, in the safe part of the building or to the street, thus rescuing 150 patients.

FILIPINOS' GUERRILLA TACTICS.

Inflict Heavy Casualties and Capture Much Munition.

San Francisco, Cal., March 23.—The Hong-Kong Press of Feb. 15 contains in its Manila correspondence the following: "It is a strange state of affairs that exists in the Philippines today. Improvement is visible in nearly every quarter, and yet it is an undeniable fact that since Jan. 1 the insurgent forces have captured a number of rifles and quantities of ammunition from the Americans almost equaling the sum total of the American captures from the insurgents. Besides this, the casualty rate for the last two weeks will come close to being heavier than at any other period of the insurrection since the first fortnight of the outbreak. The threatened guerrilla warfare seems a stern reality, and parties of fifty or smaller numbers are ambushed and 'jumped' day after day."

TOBACCO BUYING

NOW ABOUT OVER

Occasional Stray Lots are Still Being Bought at Former Quotations.

In speaking of the leaf tobacco market of Rock county, the Edgerton Tobacco Reporter prints the following:

Business has commenced to contract very materially in the tobacco markets of this state. The '99 crop is now quite thoroughly out of the hands of the growers. Occasional stray lots are still being bought at former quotations, but the indication is that the buying is about over.

One or two more of the warehouses have finished their work for the season and closed down. Others have bundle leaf in sight for several weeks yet.

The shipments from this station reach a total of 1000 cases or 20 cars for the week to 1000 cases. Receipts from outside points were 20 cars. Since last reports 1700 cases of cigar leaf were exported from New York.

FREE FROM PLAGUE SCARE

No Alarm in San Francisco but the Health Authorities Are Alert

San Francisco, March 23.—The plague situation in this city is unchanged. Chinatown is being patrolled by an army of men who are having its dirt and filth removed as fast as possible. There have been no new cases reported today, and those reported in the past have not developed symptoms of plague. The plague scare is not, in reality, a scare at all, the general public paying little or no attention to the matter.

THEY TELL OF THE POISON.

Sensational Evidence in the Horlock-Morey Trial.

Hastings, Neb., March 23.—The state rested its case Thursday in the Horlock-Morey poisoning trial. The testimony of all of the witnesses was of a most damaging character, and the day was not without its sensational features. Mr. and Mrs. Morey were both on the stand, and during the former's examination the defense persisted in a line of questions to which the witness had no opportunity to reply, as the court ruled them not proper cross-examination. When court adjourned for noon recess Mr. Morey assaulted Mr. Batty of counsel for the defense, and a disgraceful encounter was only prevented by the interference of the court and attorneys. Dick Dowd, a druggist's clerk, testified to selling arsenic, or what is commonly known as arsenic, arsenious acid. Defendant claimed to want it for killing rats. A. H. Farrens, druggist, also testified to selling arsenic to the defendant.

UNCLE SAM REFUSES TO PAY.

Says Soldiers Should Get as Low Rates as Actors.

Chicago, March 23.—There is little prospect that the railroad will succeed in forcing the government to pay higher rates for the transportation of soldiers than the railroads have been in the habit of making for theatrical troupes, base ball clubs, brass bands and similar aggregations. The general passenger agents of the western lines met here Thursday and raked their brains in order to devise some scheme for forcing the government to pay the money it is withholding from them, but they failed to reach any agreement as to the course for them to pursue. Some of the passenger agents talked loudly of a "test case" in the United States Supreme court, but the attorneys of other roads have given an opinion that the general passenger agents would better settle their claims on the basis proposed by the government.

Astor Refuses Pay.

Jeffersonville, Ind., March 23.—In making up vouchers due railroads for transportation of supplies during the Spanish-American war a claim in favor of the Findley, Port Wayne & Western railroad, of which Jacob Astor is president, was sent to the auditor of the company by Col. C. R. Barnott, U. S. A., in charge of the Jeffersonville depot of army supplies. The claim was returned with an explanation that the company was not disposed to charge the government for transporting supplies in time of war.

ARBITRATION ONLY REMEDY.

Arguments in Its Favor Before Industrial Commission.

Chicago, March 23.—The principal witnesses before the industrial commission Thursday argued for arbitration as a means of adjusting the local labor troubles. Thomas Nicholson of the general contracting firm of T. Nicholson & Sons, who has been in the building business in Chicago for twenty-five years, said the contractors were unjust in their demands in so far as the proposed disruption of the building trades' council is concerned. He thought that the great principle involved was not the walking delegate, but the power to call a sympathetic strike.

Martin B. Madden, president of the Western Stone company, was heard, and gave the history of the building trades' trouble, with an account of his attempt to bring about an arbitration, which failed. He thought that if the arbitration plan had been adopted it would have prevented 999 strikes out of 1,000.

Murder in Lodging-House.

Chicago, March 23.—What the police call deliberate murder was committed Thursday morning in a lodging-house at 91 South Desplaines street. Herman Zee kicked a fellow lodger, Charles Miller, out of his bunk and the force of the blow caused him to fall out of a window fifty feet to the ground. Miller died a half hour later at the county hospital. Zee was arrested.

A. R. De Fluert, editor of the Journal Doylestown, Ohio, suffered for a number of years from rheumatism in his right shoulder and side. He says: "My right arm at times was entirely useless. I tried Chamberlain's Pain Balm, and was surprised to receive relief almost immediately. The Pain Balm has been a constant companion of mine ever since and it never fails." Governor of Idaho on the Stand.

Washington, March 23.—Gov. Steunenberg was the first witness for the defense in the Idaho martial law inquiry. The governor said he had been ill prior to the Coeur d'Alene excitement, and being unable to go in person, he sent as his representative State Auditor Bartlett Sinclair to the seat of disorder. On April 30 Sinclair telegraphed urging that the president be advised to rush troops from the nearest available post, the state militia being in the Philippines; that there was need of martial law; that nine-tenths of the citizens favored martial law; that the local administration of the law was a farce, amounting to maladministration, and that people were afraid to testify.

Loubet May Save the Ministry.

Paris, March 23.—President Loubet discredits the reports that the cabinet will be defeated by the threatened intorptions. He is decidedly averse to a change of ministers at the present moment, and is using every means possible to support Prime Minister Waldeck-Rousseau against the strong combination formed to overthrow the government.

The difficulty between France and Morocco is attributed to English machinations. Imperative instructions have been sent to the French representatives to stand no nonsense.

SCROFULA

The Blighting Disease of Heredity.

In many respects Scrofula and Consumption are alike; they develop from the same general causes, both are hereditary and dependent upon an impure and impoverished blood supply. In consumption the disease fastens itself upon the lungs; in Scrofula the glands of the neck and throat swell and suppurate, causing ugly running sores; the eyes are inflamed and weak; there is an almost continual discharge from the ears, the limbs swell, bones ache, and white swelling is frequently a result, causing the diseased bones to work out through the skin, producing indescribable pain and suffering. Cutting away a sore or diseased gland does no good; the blood is poisoned. The old scrofulous taint which has probably come down through several generations has polluted every drop of blood.

Scrofula requires vigorous, persistent treatment. The blood must be brought back to a healthy condition before the terrible disease can be stopped in its work of destruction. Mercury, potash and other poisonous minerals usually given in such cases do more harm than good; they ruin the digestion and leave the system in a worse condition than before.

S. S. S. is the only medicine that can reach deep-seated blood troubles like Scrofula. It goes down to the very roots of the disease and forces every vestige of poison out of the blood. S. S. S. is the only purely vegetable blood purifier known. The roots and herbs from which it is made contain wonderful blood purifying properties, which no poison, however powerful, can long resist. S. S. S. stimulates and purifies the blood, increases the appetite, aids the digestion and restores health and strength to the enfeebled body. If you have reason to think you have Scrofula, or your child has inherited any blood taint, don't wait for it to develop, but begin at once the use of S. S. S. It is a fine tonic and the best blood purifier and blood builder known, as it contains no poisonous minerals. S. S. S. is pre-eminently a remedy for children.

Our medical department is in charge of experienced physicians who have made Scrofula and other blood diseases a life study. Write them about your case, or any one you are interested in. Your letter will receive prompt and careful attention. We make no charge whatever for this.

Address, THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.

SAVE THE CHILDREN.

When my daughter was an infant she had a severe case of Scrofula, for which she was under the constant care of physicians for more than two years. She was worse at the end of that time, however, and we almost despaired of her life. A few bottles of Swift's Specific cured her completely; as it seemed to go direct to the cause of the trouble. I do not believe it has an equal for stubborn cases of blood diseases which are beyond the power of other so-called blood remedies.

The Two Leaders in Spring Styles

for men are Hanan's and the Regent. The Hanan shoe is as always the best fitting and most original in last designing. No one questions that. They are the "Best on Earth". There are lots of other makes good enough in themselves, but when it comes to comparison, at the same price, well they isn't any. This season we are showing three distinctly new lasts in this unequalled line—The Admiral, the Military and the London. We can't show you any thing in our stock but new, crisp and snappy styles, gauged to suit the ever varying demand of the hour. We don't pretend to "carry" the biggest stock. We haven't time. We just "buy" and sell the newest.

About the REGENT. Notwithstanding the increased cost to manufacture this new popular shoe comes to us from the factory better and slicker than ever. You can go where you will—at \$3.50 you can't better yourself in either grade, style, fit, or shoemaking, and as to variety just drop in and we will astonish you at this price. A big range at all the popular prices. Our repair department is in charge of Nels SELGREN. Our Free Shine stand ready at all hours.

Writ of Habeas Corpus Served on Train
to Joliet:

Iowa Senator Distressed to Learn of His Legislature's Action Condemning the Measure—Belief That Beveridge Has Been Choked Off.

Washington, March 23.—Thursday was a day of bluffing in the senate but it has not materially changed the status of the Puerto Rican legislation. The democrats accused the republicans of having no intention to vote on the tariff bill and dared the republicans to fix a time for a vote. Senator Foraker met the bluff by offering to separate the tariff bill from his civil government bill and submit it to a vote at once. The democrats urged him on, but Senator Proctor of Vermont was not ready for the vote today.

The republican managers in the senate assert that they have succeeded in bringing harmony and an agreement to pass the tariff bill, but this result of the bluffing in the senate casts doubt upon the strength of that agreement. They insist that they have forty-four republican votes to pass the tariff bill and that it is to be separated from the civil government bill and passed at once, but the republican opponents of the tariff are not willing to agree with the others on the time for the vote, and there is apparently as much disagreement in the republican side as there has been at any time within the last two weeks.

There were several significant incidents. First, Senator Beveridge did not deliver his speech on the free-trade amendment he introduced on Monday. The junior senator from Indiana has been on the rack for three days. He has been made to feel the displeasure of the senators who control the senate, and it is also said that he has been remonstrated with and appealed to by the president until he has decided to postpone his speech until it is apparent whether the republicans can get together on a harmony basis.

Senator Allison, the republican leader, created surprise Thursday by admitting that the tariff was for protection to certain American products. It was therefore disagreeable news to the senator to learn that the republican legislature of Iowa Thursday adopted by unanimous vote a resolution condemning the tariff bill. This action on the part of the Iowa legislature simply embarrasses Senator Allison in his efforts to pilot the bill through the senate, for it shows that he does not represent his state as well as he does the senate managers who are trying to formulate a policy toward the islands acquired from Spain.

GREAT BRITAIN'S BIG PRICE.
For Sale or Her Somewhat Remote
Claim.

Washington, D. C., March 23.—Great significance is attached to the confident declaration of confidence on the part of prominent senators that England will sanction the Hay-Pauncefote treaty with the Davis amendment, and the announcement in the Canadian parliament by Sir Wilfrid Laurier of the probable early reassembling of the joint high commission. Several men prominent in official life, who are in a position to be aware of inside developments, declare emphatically that Great Britain will consent to the fortification of the Nicaragua canal, but decline to give any reasons or explanation of their confidence. Nothing is known in diplomatic circles of England's willingness to accept the Davis amendment, but the fact that the joint high commission adjourned after repeated efforts had been made to reach an agreement suggests to the diplomats that concessions have probably been offered on both sides. Unless the United States or Canada is willing to modify its demands or Canada is willing to modify its demands and is prepared to offer concessions, another meeting of the joint high commission would be fruitless.

It is stated, in explanation of the reconvening of the commission, that England, in agreeing to the fortification of the canal, is to receive concessions for Canada, probably in Alaska, which may include a port of entry and a treaty making the *modus vivendi* permanent.

It is very hard to stand idly by and see our dear ones suffer while awaiting the arrival of the doctor. An Albany, (N. Y.), dairyman called at a drug store there for a doctor to come and see his child, then very sick with croup. Not finding the doctor in he left word for him to come at once on his return. He also bought a bottle of Chamberlain's Cough Remedy, which he hoped would give some relief until the doctor should arrive. In a few hours he returned, saying the doctor need not come as the child was much better. The druggist, Mr. Otto Szol, says the family has since recommended Chamberlain's Cough Remedy to their neighbors and friends until he has a constant demand for it from that part of the country. Chicago, March 23.—By a flank movement in the shape of a petition for a writ of habeas corpus executed at the last possible moment by his counsel, former Banker Edward S. Dreyer on Thursday afternoon escaped a trip to the Joliet penitentiary. Dreyer was seated in the smoking car of the 3 o'clock Chicago & Alton train when Attorney Alfred S. Austrian walked hurriedly into the car and served on Jailer Whitman the writ issued by Judge Dunne commanding the presence of Edward S. Dreyer forthwith in the courtroom. A hurried exit from the train was made, which was to start in a minute's time. The serving of the writ was an offset to the advantage gained by the state's attorney earlier in the day, when ineffectual efforts were made to bring Dreyer to trial on other indictments still pending.

Strike First Striking in Milwaukee.
Milwaukee, Wis., March 23.—The news from Cleveland that the machinists of that city had been called out on strike has thrown the machinists of this city into a fever of excitement. The hotbed of the strike agitation here has been in the iron works of the Filer Stowel company, the machinists in which are union men. The E. P. Allis foundry is the largest employer of machinists in the city, but they are nearly all non-union men. It is said, however, that missionary work among them has been active of late and that a good many converts to unionism have been made, and that in the event of a strike most of the non-union men would go out. If this be so, about 2,000 machinists may lay down their tools.

Machinists Gaining Ground.
Toledo, Ohio, March 23.—Stuart Reed, national organizer of the International Association of Machinists, has returned home from Chicago and says that despite all reports to the contrary, the machinists are steadily gaining ground, and that the manufacturers are daily acceding to the demands of the union for a shorter workday.
